

La Fontana
CARE HOME

WELCOME TO LA FONTANA HOUSE

Situated on the outskirts of Martock, surrounded by beautiful Somerset countryside, La Fontana Care Home provides dedicated Residential, Specialist Dementia, Nursing, Palliative and Respite Care for up to 76 residents.

Set across seven thoughtfully-designed suites, each with its own living, dining and kitchenette space, La Fontana is a modern home with comfort and care at its heart. Each well-appointed bedroom offers the opportunity for residents to personalise the space to make it truly feel like their own, and a real home from home.

Residents, and their families, enjoy our unique reminiscence and themed areas, from our vintage storefronts to a seaside panorama in our well-positioned sunroom. The perfect spot to enjoy an ice cream and good company!

Our garden areas have been designed with residents in mind, encouraging a connection with the outdoors for all and plentiful spaces to relax quietly or socialise in. Raised beds and greenhouses ensure that gardening is a continuing pleasure for our green-fingered residents – or they can simply enjoy the results!

A WARM WELCOME AWAITS

All individual care needs are provided through personalised care planning and collaboration with residents and their families. Our holistic approach to care incorporates residents overall wellbeing and we take great pride in the nutritional care we offer. Our team of chefs are proud to cook nutritious home cooked meals daily, catering to all dietary needs and preferences promoting sociable dining experiences.

Our Activities Programme is second to none, with residents encouraged to continue much-loved hobbies, and to begin new ones!

We're proud to be a welcoming home where residents are relaxed, happy and fulfilled, with care always on hand should it be required.

*We look forward to
welcoming you*
